บริษัท ชัยยุทธการประดิษฐ์ (1988) จำกัด

Chaiyoot Factory (CYF) was established in 1969 as Chaiyoot Factory Limited Partnership and re-registered as Chaiyoot Factory (1988) Co., Ltd in 1988.

CYF has been in the original equipment manufacturer business ever since. CYF has been manufacturing parts for both domestic and export markets.

Today CYF manufacturing facilities included cold forging machines, hot forging machines, stamping machines, hydraulic press machines, CNC machining, CNC pipe bending machines, CNC wire cut machines, roll-forming machines, serration broaching machines, spot welding, rotary welding machines and robot welding machines.

Vision

CYF aims to become one of Thailand recognized world-class quality manufacturers of original equipment manufacturer parts.

Mission

Through relentless pursue for manufacturing excellence and continuous improvement, CYF strives to manufacture world-class quality products for domestic market and export to all over the world.

Policy

We will strive forward together, continuously improving quality standard, enhancing customers' satisfaction and improving the quality of life of our members.

WELDING

In addition to our highly-skilled and regularly trained welding members, we have advance technology welding robots for handling complicated welding processes.

CYF has been making Die, Tooling, Welding and Inspection Jig in-house ever since 1969. With our one-stop service for press and welding parts, we have gained customers' confidence and satisfaction to manufacture world-class quality motorcycle's parts which these motorcycles are export to Europe, USA, South America, Australia, etc.

PRESS

Our mechanical press machines range from 20 to 600 tons. In 2005, we have added the latest technology hybrid ac servo press machine which has free motion mechanism which help improve forming and productivity especially for deep drawn parts.

In addition to mechanical press machines, our facilities also included hydraulic press machines, cold and hot forging machines.

QUALITY CONTROL

Our quality policy :

1. No receive NG parts.
2. No manufacture NG parts.
3. No deliver NG parts.

Our measuring instruments are regularly calibrated to guarantee accuracy. As shown above is our 3-dimensional measuring instrument.
